

We would like to thank everyone that came out today. We had great weather!! This is our last registered shoot for the year and we want to thank everyone for your support.

While our expansion plans didn't work out as planned, but we are completing our course as a full loop connecting the existing station 1 with the last station on the back of the course. The path on the backside will be relocated to the far side of the ravine to avoid a very large bridge to get across it. Our new setup will be ready for April 1st, and we will continue shooting the existing stations until that time.

Again, thank you for your support, and we look forward to our January 2012 Fun Shoot.
